A creative team of three sausage musketeers, all with a passion for the finer things in life, making inspired charcuterie on the South East coast.

Our process begins by sourcing the best produce we can find, this means high welfare, free range, local and happy animals.

Our pigs are a little over eleven miles away from our Brighton HQ, reared in open fields in the Southdowns.

We test the PH levels too, this can indicate stress levels that the animal may have been put through, above a certain PH and we won't work with it. From there we turn ideas into cured meats & fermented sausages under strict conditions using natural skins only. Temperature, humidity and air drying controls are put into place to ensure we can produce the best products we possibly can, monitoring these in detail along the way.

From the outset we've been conscious of how we could have our products in a marketplace without the use of single use plastics. It has been a personal mission and we are pleased to say that all our products are packaged in biodegradable and ocean friendly materials and are working on our entire process to be as planet friendly as possible.
